IDENTIFIERS *Saint Petersburg Junior College FL

ABSTRACT

This 1997-98 factbook is intended to provide statistical information to support sound planning and decision making, as well as to provide an historical perspective of St. Petersburg Junior College. Topics include: (1) a brief college history; (2) a look to the future; (3) a description of the service area, and data related to the College's student body, academics, personnel, financial position, facilities, and outcomes indicators; and (4) descriptive statistical information. Statistical data on the college are presented in the following categories: (1) student enrollment, including credit student history, opening fall credit headcount, end-of-session fall credit headcount, and student registration; (2) academics; (3) outcomes and indicators; (4) facilities; (5) personnel; and (6) finance. Graphs and charts provide an at-a-glance comparative perspective. Fall student enrollment, which had increased steadily through 1992, began a downturn in 1993, which began to stabilize in 1997. By ethnicity, enrollment by white students decreased steadily between 1992 and 1997, while enrollment by Blacks, Hispanics, and Asians increased. Between 1992 and 1996, total revenues increased from $49.1 million to $58.2 million, while total expenses increased from $48.6 million to $57.1 million. Appendices include an inventory of degree and certificate programs, 1996-97 employers by programs, an accreditation schedule, and a description of special programs. (JJL)

ST. PETERSBURG JUNIOR COLLEGE

1997-98 *FactBook*

INTRODUCTION

The St. Petersburg Junior College *FactBook* is intended to provide statistical information to support sound planning and decision-making, as well as to provide a historical perspective of the institution. It is designed for use as a desk reference documenting data to support academic and administrative decisions and as a handbook for use by faculty wishing to gain a college-wide perspective.

In general, data is provided for multiple years in each section to provide a comprehensive view of the area. Topics include a brief college history, a description of the service area, and data related to the College's student body, academics, personnel, financial position, facilities, and outcomes indicators. Graphs and charts provide an at-a-glance comparative perspective.

This marks the fifth publication of the *FactBook*. This book is a combination of tables in the A. S. Information Guide and the standard *FactBook* tables. In addition to the printed copy, tables are stored for easy access on the Big Apple and on the World Wide Web -- http://www.spjc.cc.fl.us -- and it is updated on a continual basis as the data becomes available.

As with any publication, this book is the result of the time and efforts of many people both in developing the information and producing the hard copy. An in-house production, the cover was designed by the staff in Institutional Advancement and the book printed in District Impressions. Many thanks to all SPJC staff who were involved in this publication. We hope you will find this *FactBook* useful and welcome any suggestions for improving the content or presentation by completing the evaluation which follows on the next page.

HISTORY OF ST. PETERSBURG JUNIOR COLLEGE

Access and excellence are the hallmarks of St. Petersburg Junior College, Florida's oldest two-year institution of higher education. Founded in 1927 as a private institution, with its initial classes held in one section of a Pinellas County public high school, today it stands as a multicampus public institution with sites located throughout the county and services throughout the nation. There are campuses in Clearwater and St. Petersburg; a center in Tarpon Springs; the Canal Park Extension of the Tarpon Springs Center in Oldsmar; the Health Education Center, and the District Office with central services facilities in Pinellas Park; and the Marine Science Center at Bay Pines, the Carillon Center for Corporate Training Services, and the Allstate Center with its Criminal Justice Institute, all in St. Petersburg. A new campus is also being planned on a 103-acre site in Seminole. In addition, courses are offered in various community facilities throughout the county via the Open Campus program.

In the Beginning

THE CHARTER

Captain George M. Lynch, superintendent of public instruction for St. Petersburg's public schools, founded St. Petersburg Junior College in 1927 as a private, nonprofit corporation to meet the needs of a growing state population and to provide local access to higher education for students with limited resources. The nation's Great Depression of the 1930s had come early to Florida. The "paper boom" (inflated land values) fueled inflation during the mid-20s in the Sunshine State. Subsequently, many high school graduates found college beyond their means.

St. Petersburg Junior College was founded to enable students to live at home, pay low tuition, work part-time and still pursue a postsecondary education. The 1928 charter application to the State of Florida listed the following aims for the college:

> To found, maintain and conduct a scientific institution of learning; having a department of fine arts; and such other departments as from time to time may be added in accordance with the provisions of the by-laws; to own, buy, sell and mortgage real estate and personal property and to use all income derived therefrom in its work and not for the benefit of the members of said Corporation.

Led by Captain Lynch, who would become the college's first president, a group of local citizens signed the charter application. They were L. Chauncey Brown, publisher of the *St. Petersburg Evening Independent;* Frederick R. Francke, a Florida Power Corporation executive; Frank N. Robinson, an insurance executive; George W. Wylie, an attorney; and Robert R. Walden, a merchant. These individuals, together with Mrs. H. C. Case, a Pinellas County trustee, made up the founding board of governors. They demonstrated their dedication by signing personal bank notes guaranteeing expenses until tuition could be collected. The city's Advertising and Library Board also backed the college with funds amounting to $10,000.

The board members managed the corporate affairs until the first election when Brown was named board president, Francke vice president, Robinson treasurer and Wylie secretary. Captain Lynch, who eventually rose to county superintendent, remained president of the college until his death in 1935. At that time, Robert B. Reed, whom Lynch had selected as dean of the college, was appointed by the board as the second president. G.V. Fuguitt succeeded Captain Lynch as the county superintendent. The informal relationship between St. Petersburg Junior College and the Pinellas County School System continued.

COLLEGE PROGRAMS

In the beginning, advice was sought from educators at the University of Florida regarding the type of college to be created. They recommended a two-year college, noting that it would be much less expensive to operate than a four-year institution. Captain Lynch and the board agreed, but clung to the idea that St. Petersburg Junior College would become a four-year college as soon as it was financially feasible. In the 1927 catalog, the goal of the college read as follows:

> ... to afford opportunity to the young men and young women of St. Petersburg and Pinellas County who have completed the 12th grade course of study, to continue a two-year program of study of college grade, leading to the degrees of Bachelor of Arts and Bachelor of Science. Non-resident students will be admitted upon certificate showing that they are living with their parents, legal guardians or relatives.

Students who attended the College planned to graduate in arts and sciences. At the time, there were no separate departments at the college, but the curriculum included history, English, mathematics, science, and education. Students would either transfer to a college or university to complete their baccalaureate degrees or receive a teacher's certificate that would permit them to seek employment in elementary and secondary schools. As noted by the State Superintendent of Public Instruction, W. S. Cawthon, in 1928:

> This office will recognize graduates of the St. Petersburg Junior College ... and will issue limited Graduate State Certificates to the said graduates, said certificates authorizing the holders thereof to teach in the public schools up to and including the tenth grade.

The college became fully accredited in 1931. Preparation for transfer to four-year colleges was strengthened in September 1933 by the addition of a third year to the curriculum, a year recognized under certain provisions by the University of Florida. In 1934, under those same provisions, the third year of college also was recognized by the Florida State College for Women (now Florida State University). The additional year of the curriculum was dropped by St. Petersburg Junior College at the end of the 1938-39 academic year because it had become evident that expenses progress geometrically not arithmetically. At that time, the Board of Governors determined to maintain a strong, high-standard two-year college and abandoned further efforts to seek four-year status.

FACULTY AND STUDENTS

The opening Fall 1927 enrollment was 87. The first class was held on September 12. W.W. Little, principal of St. Petersburg High School and acting college dean, was in charge of 14 faculty members. By 1928-29, Robert B. Reed had been appointed dean, teaching history while performing his administrative duties. In the Fall of that year (1928), 186 students enrolled; in the following June, 50 students were graduated, the first class. The college granted diplomas, a practice that continued until June 1946 when the first Associate in Arts degrees (44 in all) were awarded. Opening fall enrollment had grown from 173 in 1930 to 389 in 1939.

At the beginning of the fall semester in 1941, enrollment was 317. It was during that semester that the United States became involved in World War II. The result was that enrollment dropped sharply, reaching a low of 98 students–almost all of them women–in the Fall of 1943. The College avoided being closed by becoming an integral part of the war effort. A Civil Aeronautics Administration/War Training Service (CAA/WTS) installation was established. Each six weeks, 60 naval V5 cadets were channeled through the College for part of their early training. Housed in an old hotel near Albert Whitted Airport on the city's bay front, they received their first experience as pilots while attending "ground school," which included navigation, plane recognition, physical training and naval procedures relevant to their objective.

Upon the death of President Reed in 1944, Dr. Roland A. Wakefield, who had been head of the Department of Physical Sciences at the college since 1933, was appointed president. Dr. Wakefield's interest in aviation had taken him during the war from St. Petersburg Junior College's science classroom to Atlanta, Georgia where he served as the Civil Aeronautics Administration/War Training Service regional coordinator. He assumed the presidency soon after his return to the College.

War's end brought the College's largest-ever enrollment as returning veterans took advantage of the GI Bill. Fall enrollments in 1946 and 1947 were 452 and 460, respectively. Dr. Wakefield retired at the end of the 1949-50 academic year; 88 students graduated that June. He was succeeded by the Dean of Men, Dr. Michael M. Bennett, a member of the college faculty since 1940. Dr. Bennett was the first president to have attended St. Petersburg Junior College as a student.

FACILITIES

When classes began in Fall 1927, Captain Lynch, as city superintendent, had persuaded the Pinellas County School Board to provide space, at no cost to the college, in one unused (and unwired) wing in the then two-year-old St. Petersburg High School. At the end of Fall semester 1927, students and faculty moved to a former public school at Fifth Street North and Second Avenue downtown, overlooking Mirror Lake. This mid-year move to downtown - into a two-story, white-columned brick building - gave the college much more room. Although the College remained at this facility until 1942, it soon grew cramped and it became clear that larger quarters would be needed. In 1931, the City of St. Petersburg pledged an annual grant of $15,000 to the college. Six years later, it donated a 24-acre tract in the city's Eagle Crest section. President Reed initiated a building campaign in 1938 that raised about $100,000 in pledges made by St. Petersburg residents and businesses.

The first permanent building–which housed classrooms, offices, the library and an auditorium,–was erected at the corner of Fifth Avenue North and 66th Street. Built with WPA labor, it cost $91,000; equipment worth about $100,000 was transferred from the old building. The new building and its contents were valued at a quarter of a million dollars. The first classes were held in this building, in Spring 1942. A small, temporary cafeteria building also was built. These two buildings, plus a limited library first occupied in 1955, constituted the college's total facilities until 1957.

The original building, still in use today, is known as the James E. Hendry Administration Building on the St. Petersburg/Gibbs Campus. Renovated and air conditioned in 1963, it now houses administrative offices, conference rooms and faculty offices. The auditorium also was renovated, and has been redesigned as well. More additions and renovations to the building were made in 1991 and 1992. In 1993-94, the other buildings on campus underwent a multi-million dollar renovation.

FROM PRIVATE TO PUBLIC

The wave of returning veterans subsided somewhat toward the end of the 1940's. The college began losing superior faculty to better paying positions at other colleges and universities. Demographics pointed to fewer college-age people for at least the next decade. This was the result of low birth rates during the 1930's. Tuition increases necessary to maintain the operation of the college proved counterproductive by further depressing student enrollment. Prosperity was not evident in the college's service area; hence, outside financial support for a private two-year college was extremely difficult to generate.

The Florida Legislature, in 1939, adopted a law authorizing counties with a population of 50,000 or more to establish a public junior college, with permission of the State Board of Education. Then, in 1947, the Florida Legislature passed the Minimum Foundation Program (MFP), which provided financial support for operation and capital outlay (construction) for Florida public schools. On May 11, 1948, the Pinellas County Board of Public Instruction adopted a resolution accepting the college. St. Petersburg Junior College converted from private to public school status, the second junior college (after Palm Beach Junior College) in the state to make the change. At that time, the Board of Governors of the college dissolved the corporation and released all existing facilities to the school board. L. C. Brown still remained president of the Board of Governors, which had consisted of 12 members. The Board became the College Advisory Committee, established by state statute (Chapter 230.0103 F. S. and State Board Regulations Chapter 130-8.04) with L. C. Brown as chairman. Others on the five member Advisory Board were Frederick R. Francke, Allen C. Grazier, Robert R. Walden and George W. Wylie, all former members of the Board of Governors.

With the change in status from private to public, the college became part of the school system with the president reporting to the superintendent of Pinellas County Schools. Shortly after the college became public, G. V. Fuguitt retired as Superintendent of Public Instruction for Pinellas County. Floyd T. Christian was elected to succeed him. During the college's tenure under the County School Board, tuition was lowered. Although the Florida Legislature authorized creation of the Division of Community Colleges in the State Department of Education in 1957, it was not until July 1, 1968 that it authorized the separation of the colleges from their county school systems. At that time, the College Advisory Committee of five members became the St. Petersburg Junior College District Board of Trustees.

At the state level, the Florida system of 28 community colleges has undergone various reorganizations to insure its efficient and effective operation. In 1983, the Florida Legislature replaced the State Community College Coordinating Board with the State Board of Community Colleges which has preserved local control represented by local boards of trustees while at the same time establishing system-wide policies and coordination.

AND IT GREW

EXPANSION OF THE COLLEGE MISSION

Pinellas County experienced unprecedented growth during the 1950s and the college was swept along with it. In Fall 1950, the first year of Dr. Bennett's presidency, 451 students enrolled; in Fall 1978, the last year of his presidency, 14,445 students enrolled. During his 28-year tenure, enrollment increased by more than 3,100 percent. Additionally, during those 28 years, 25,449 degrees were awarded. This compares to 1,450 students who had graduated from 1928-29 through 1949-50–an increase of more than 1,650 percent.

As part of the Self-Study of 1957-59, the faculty formulated a college philosophy and a set of institution-wide objectives reported in the *1958-59 College Bulletin*. Acknowledging its relationship to the county schools, St. Petersburg Junior College noted that its philosophy was contingent upon the Statement of Philosophy of Education for the Schools of Pinellas County, Florida. Moreover, it recognized an expanded responsibility to the individual. The college mission was stated in the following manner:

> St. Petersburg Junior College shares a responsibility with the community, county, state and nation in contributing to the development of the individual student so that he has the opportunity to become a useful citizen, to make worthwhile contributions to society and to live a rich and satisfying life.
>
> The purpose of the college is threefold: (1) to provide community educational facilities for those who may wish to transfer and continue their college education; (2) to provide community educational facilities for those who wish to terminate college work at the junior college level; and (3) to provide the entire community with an educational program based upon its needs and demands.

The catalog listed seven enabling objectives to achieve the college purpose and one objective describing a method to measure their attainment. These objectives affirmed the commitment to a college transfer program comparable to the lower division program available in four year colleges and universities, a terminal college curriculum that would lead to employment and non-credit life-long learning courses that would facilitate changing vocational and social needs.

The college rigorously developed its programs to meet its new educational vision for the next 20 years. It was not until the *1978-79 College Bulletin* that a major change appeared. While the objectives previously stated were reaffirmed, attention was given to students who might profit from special opportunities, including instruction to overcome deficiencies that might impede college-level work. The following six objectives were identified in the bulletin for the College:

12

(1) To provide educational opportunities for those students who will transfer to other colleges in order to continue their education.

(2) To provide a variety of occupationally-oriented programs for those students who complete their career preparation at St. Petersburg Junior College.

(3) To provide opportunities for students who desire to increase their general education.

(4) To provide opportunities for cultural enrichment, personal and social development for members of the community.

(5) To provide special opportunities for students with superior qualifications as well as for students with inadequate skills and backgrounds who need additional training in order to participate in the general programs of the college.

(6) To provide, through counseling, guidance which will enable students to plan more effectively for the realistic attainment of their academic and personal goals.

These objectives became the foundation upon which a more comprehensive mission would emerge in the next stage of the college's development.

COLLEGE PROGRAMS

As the enrollment grew, the college undertook the development of an expanded curriculum. The School of Nursing was founded in 1954 and Anastasia M. Hartley, R.N. was named director. This school offered the first associate degree in nursing in the State of Florida. In addition to the two-year program in nursing, occupationally-oriented programs in business were developed.

Although Article II of the Application for Charter in 1928 called for "...a department of fine arts; and such other departments as from time to time may be added..." it was 1956 before the College became departmentalized. Table 1 shows the first organization of the college.

TABLE 1
COLLEGE'S FIRST DEPARTMENTS, 1956

Department	Chairperson
Business	Melvin Courson
Communications	Gertrude Porter
Humanities	Harriette G. Ridley
Mathematics & Engineering	Carol S. Scott
Natural Sciences	Arthur W. Gay Jr.
Nursing[1]	Anastasia M. Hartley
Social Sciences	E. L. Noel Jr.

In 1957-58, the School of Nursing became the Division of Nursing and continued to be headed by Miss Hartley. By 1958-59, several changes had occurred in department chairpersons, and one new department and a second division had been created. The 1958-59 college organization is shown on Table 2.

TABLE 2
COLLEGE DEPARTMENTS AND DIVISIONS, 1958-59

Department/Division	Chairperson
Business	J. E. Nicholson
Communications	M. Carolyn Parker
Humanities	Harriette G. Ridley
Mathematics	Carol S. Scott
Natural Sciences	Arthur W. Gay Jr.
Nursing Division[2]	Anastasia M. Hartley, R.N.[3]
Radio, Television & Film	Nancy E. Reiss
Social Sciences	E. L. Noel Jr.
Technical Division	William L. Bolin[3]

The 1960's saw continual change in college organization. In 1960-61, the Department of Communications was renamed the Department of English and continued to be headed by M. Carolyn Parker. All speech, dramatics and modern language courses were placed in the new Department of Speech and Modern Languages chaired by Roberta M. Buchanan. In January 1965, this department was placed in the Department of Humanities and Peter Mendoza Jr. was named Assistant Chairman for Speech and Modern Languages.

Also in 1960-61, the Department of Business became the Department of Business Administration. The following year, the Department of Radio, Television and Film became the Department of Radio and Television chaired by Robert C. Bohan.

[1] School established 1954

[2] Created 1957-58

[3] Dean of the Division

The decade of the '60's saw the creation of several new departments. In 1960-61, the Department of Physical Education was created, chaired by Eleanore M. Gehlen. Joan Catherman was employed in 1962, as director of the new Dental Hygiene Division, to plan for the implementation of classes during 1963-64 year. The Department of Police Administration was created in 1962 with James D. Stinchcomb as chairman. The following year, Harold V. Hoff was employed as chairman of the new Hotel-Motel-Restaurant Department. Students were initially enrolled in this program during 1964.

Two courses in data processing were offered in 1964-65, and in 1966 the Data Processing Department was established with Wayne Laurents as chairman. Beginning with the 1965-66 academic year, the college instituted a remedial Program of Directed Studies for students with ability whose educational background evidenced academic weaknesses. The department developed courses that focused on the use of programmed and non-programmed instructional materials to strengthen students' basic skills as well as study skills. The College became a three-campus institution in Summer 1965 with the opening of the Clearwater Campus. A Directed Studies Department was activated on both the St. Petersburg and Clearwater campuses and was combined with Communications on the short-lived Gibbs (later Skyway) Campus in south St. Petersburg. Clearwater Campus departments activated with its opening are shown on Table 3.

Physical Education	Annie Woodard
Social Sciences	Leo Ballard

In 1967, several organizational changes occurred on the Clearwater and St. Petersburg campuses. In January 1967, the Humanities Department was established on the Clearwater Campus with Donald L. Bisdorf as chairman, and the Communications Division became the English Department. On the St. Petersburg Campus, two assistant deanships were created under the Dean of Instruction, one for Technical-Related Programs and one for Health-Related Programs. The Hotel-Motel-Restaurant, Radio-Television, Police Administration and Electronic & Mechanical Technology departments were placed under Technical-Related Programs. The Dental Hygiene and Nursing departments, as well as two new programs, Inhalation Therapy and Hospital Care Administration, were placed under Health-Related Programs.

On the Clearwater Campus, Leroy M. DeVane was named Assistant Dean of Instruction for Governmental Services. The Data Processing Department and the new Aerospace Technology program were placed under Dr. DeVane. A new program in Pre-School Education was begun on both the Clearwater and St. Petersburg Campuses. Its purpose was to prepare competent instructional personnel for community, private and church-related pre-school institutions and to provide in-service opportunities for pre-school classroom teachers.

Much expansion of college programs occurred during Dr. Bennett's tenure. The programs on the St. Petersburg and Clearwater Campuses at the time of his retirement are shown on Table 5.

TABLE 5
ACADEMIC DEPARTMENTS/DIVISIONS BY CAMPUS, 1978

Campus	Department/Division	Chairman/Director
Clearwater	Architectural Technology	Robert Sebek
	Aviation Technology	Wayne J. Harrison
	Business	Jack Miller
	Communications	Helen V. McLean
	Computer Science	Mary C. Durkin
	Emergency Medical Technology	Barbara Finn

	Police Administration	Robert B. Tegarden
	Science	William R. Rice
	Social Science	Joy A. Mitchell

In addition to those shown, a Deaf Program at the Clearwater Campus had been created, coordinated by Calvin D. Harris.

FACILITIES

As the enrollment increased so did the need for the construction of additional facilities. A direct appropriation by the Legislature in 1954 resulted in the start of new construction. The St. Petersburg Campus acquired a small new library which was occupied in 1955. Five separate parcels of one to five acres of land were purchased for $360,742, extending the campus from the original 24 acres to 37.58 acres. The largest of these parcels is the site of the natatorium and field house. Today, the campus has 17 buildings.

In 1953, as a result of requests from people living in the Clearwater area, nine evening classes were offered at Clearwater High School. Eighty-eight (88) persons registered for the first session, and course offerings were increased each semester as the needs and interests of the northern Pinellas students were identified. During the 1959 Fall semester, 113 students were registered in 14 evening classes at Clearwater High School. After considering the current enrollment and projected growth of Pinellas County, the College Advisory Committee recommended that a Clearwater campus be established. In July 1959, a request was made to the State Department of Education for permission to plan a campus in the northern part of the county. After a study of enrollment projections for the next 10 years and a survey by the State Department of Education, the plan for a campus in Clearwater was approved, 14 miles north of the St. Petersburg Campus.

In 1962, a tract of land was selected and acquired through purchases and gifts. In 1964, construction began. The 38.3 acres north of Drew street were purchased from the county for the token sum of one dollar; the 34.5 acres south of Drew Street were purchased for $226,008, with the city of Clearwater paying $127,000 of this amount. During the second semester of 1964-65, 532 students taking 35 evening classes were moved onto the new campus and day classes were held there for the first time. In 1968, a parcel of one-half acre was purchased for $1,275 for parking; in 1969 the Faith United Church of Christ donated a similar parcel, valued at $2,000, also used for parking. The Clearwater Campus today encompasses 73.87 acres and contains 17 buildings.

In February 1965, Gibbs Junior College in South St. Petersburg was placed under the supervision of St. Petersburg Junior College. At the close of the 1965 Spring semester, it became the Gibbs Campus of St. Petersburg Junior College. In 1966, the campus name was changed to the Skyway Campus. For economic reasons, however, this campus was phased out of operation in June 1967. In February 1993, the St. Petersburg Campus became the St. Petersburg/Gibbs Campus, to honor the contributions Gibbs Junior College has made to St. Petersburg Junior College and to Pinellas County education in general.

Although operating three campuses, St. Petersburg Junior College remained a single institution with a central administrative organization. This one-college concept could best be maintained by having central administrative offices. In July 1966, the Pinellas County Board of Public Instruction purchased a 9.47 acre site in Pinellas Park for this purpose. Construction of two office buildings was started in 1967. These offices were housed in a mid-county location without specific physical identification with any campus. They were occupied in August 1968.

Early in 1970, the mayor of Tarpon Springs approached President Michael Bennett regarding the possibility of opening a college site in that area. An initial study was made and a special relationship was formed between Tarpon Springs Banker/philanthropist A. L. Ellis and city officials. The result: establishment of the Tarpon Springs Center, rent-free to the college, on the second floor of the Ellis Springs State Bank in the fall of 1970, to operate for a provisional three-year period. Later, the city's Rotary Club provided additional space in the Rotary Youth Center. On October 19, 1972, the College purchased a tract consisting of 54.17 acres on Klosterman Road for $328,000. Seven buildings with more than 21,000 square feet rose on the site and the brand-new Tarpon Springs Center opened in Fall 1975. Today it contains ten permanent structures augmented by portable facilities, and a major expansion is under way that will add four more buildings. The campus area also has grown through the recent acquisition of 18.6 adjacent acres.

In August 1970, and again in February 1971, the College purchased tracts of 81.4 and 21.72 acres, respectively, in the Seminole area. A new campus now is under construction, the initial building of which is to be a model of educational technology — a 24,000-square-foot Technology Learning Center that will contain computer and interactive-TV classrooms, a multimedia conference room and a 120-computer video station known as the Information Commons.

The Bay Pines property of 55.21 acres, only 15 of which are above the mean high water mark, was acquired in December 1973 by a quitclaim deed from the federal government. The two buildings on the property have been converted to serve as storage and classrooms for the Life Skills Program. This offering, a training program that provides life skills training for retarded adults past the of age 21, is under the direction and co-sponsorship of the Open Campus of St. Petersburg Junior College and the Pinellas County School Board.

AND LOOKED TOWARD THE FUTURE

President Bennett's January 31, 1978 retirement was followed by the appointment of Carl M. Kuttler Jr., J.D., who had been serving the college as Dean of Administrative Affairs. Dr. Kuttler, the second St. Petersburg Junior College graduate to be named to the College presidency, continues to serve.

COLLEGE MISSION

In 1987, the District Board of Trustees adopted a new mission statement that affirmed St. Petersburg Junior College as a comprehensive, open door institution whose policy was to provide quality educational experiences to a diverse student body and community. The original goal of the college (to prepare students to transfer to a four-year institution) continued, as did the goals previously established regarding the preparation of students for entry into a job or career, the upgrading of students' occupational skills, and the strengthening of their basic academic skills. Additionally, the mission statement addressed the need for flexibility and innovation in the way services were provided, the integration of educational goals into lifelong learning, and the encouragement of minority students to utilize the available college resources and opportunities. The 1989 Florida Legislature added economic development as a component of the mission of all community colleges and granted SPJC capital construction and renovation funds totaling $6,293,832 in 1989-90, $5,664,427 in 1990-91, $6,676,405 in 1991-92, $13,305,995 in 1992-93, $6,729,719 in 1993-94, $10,481,060 in 1994-95, $6,335,156 in 1995-96, $8,353,332 in 1996-97, and $12,542,977 in 1997-98.

During the 1993-94 school year, a committee was formed to review the college's mission. A new statement of the college's mission, which appears on the first page on the 1994-95 catalog, states that the goals of the college are to:

- prepare students for transfer to upper division baccalaureate programs at four-year colleges and universities through the Associate in Arts degree program;

- prepare students for careers requiring postsecondary education through Associate in Science and selected Certificate programs;
- prepare students for responsible and ethical citizenship, directed interaction in the diverse community, participation in the global society, effective involvement in life activities, and informed decision-making through general education courses;
- provide underprepared students with opportunities to achieve entry level skills in reading, writing and mathematics through the college preparatory programs;
- provide opportunities to improve employability and enhance career skills, and to attain personal enrichment, through courses, seminars, workshops and other continuing education programs offered throughout the community;
- help students choose appropriate courses, programs, services and activities as well as maximize their opportunity to succeed in college through a comprehensive student development program;
- contribute to the economic development of the county through technical courses, workshops, programs and services designed to enhance the competitiveness of individuals, businesses and industries in the local, state, national and global economies;
- contribute to the international education of students through a variety of courses, foreign study tours, faculty and student exchanges, linkages with international institutions and other special programs; and
- serve target populations beyond the borders of Pinellas County through authorized programs and activities that emanate from the institution's history of service and specialized expertise.

COLLEGE PROGRAMS

Under President Kuttler's leadership, the Open Campus, a flexible system for providing educational services, was established to meet the growing needs of the community for lifelong learning. This program provides credit and non-credit courses, workshops and seminars on the college campuses and at business sites throughout the county to meet existing community needs. It includes the Corporate Training Center as well as the College for Kids Program, the Dual Credit Program for high school students, and other continuing education classes for job training and fun.

Today, the programs leading to the Associate in Arts degree are the traditional transfer programs with concentrations in art, arts and sciences, architectural/building construction, business administration, computer science (business option), corrections, early childhood development, education, engineering, corrections/criminal justice, English/humanities, fashion merchandising, fire administration, forestry, gerontology, human services, social work or occupational therapy, industrial arts education, international business, law enforcement, mass communications, mathematics, medical technology, music or music education, natural science, nursing, occupational therapy, pharmacy, physical therapy, speech/audio pathology, pre-dental, pre-medical, pre-veterinarian. These programs meet all the requirements of the general education component for the baccalaureate degree.

The college has more than three-dozen Associate in Science programs that prepare students for entry-level jobs. Alphabetically, they are Accounting Technology; Architectural Design and Construction Technology; Aviation Administration; Building Construction Technology; Business Administration and Management (with options in Entrepreneurship, International Business, Marketing, and Quality Management); Child Development and Education; Computer Information Systems Analysis (with options in Computer Programming, Network Systems Management, and Office Systems Management); Criminal Justice Technology; Dental Hygiene; Electronics Engineering Technology; Emergency Medical Services; Fashion Design (C.A.S.P.); Financial Services (with options in Banking or Credit Union Management); Fire Science Technology (with options in Fire Prevention or Fire Suppression); Funeral Services; Graphic Design Technology; Health Information Management; Health Services Management (with options in Home Health Care, Long Term Care, and Medical Administration); Human Services (with options in Alcohol/Substance Abuse and Mental Health/Developmental Disabilities); Interior Design Technology; Interpreter Training Program for the Hearing Impaired; Legal Assisting; Manufacturing Technology; Medical Laboratory Technology; Nursing (RN); Physical Therapist Assistant; Professional Pilot Technology; Radiography; Respiratory Care; Telecommunications Engineering Technology; Veterinary Technology; and Water and Wastewater Technology.

Additionally, the college offers a growing set of certificate programs that in 1997 expanded more than sixfold. Currently, there are 38 different programs, grouped under these six headings: Advanced Center for Technology; Business Development & Office Services; Health Information Management & Specialty Services; Health Management & Social Services; Manufacturing, Design & Building Construction Technology; and Public Safety.

In 1989, SPJC launched Project Flamingo, a collegewide, comprehensive approach to integrate computer technology in a totally-networked standardized environment. The plan was created to enhance the curriculum and teaching-and-learning process, strengthen the administrative systems and improve campus communications. This multi-year computer project was developed with considerable help and cooperation of Apple Computer, Unisys and the Digital Equipment Corporation (DEC), who among them contributed more than $3-million in equipment to the college. Through the project all of the college sites are now interconnected; and the majority of faculty and staff are using the new tools of technology to enhance quality and improve productivity. The major purpose of Project Flamingo continues to the present time, to promote excellence in teaching and learning by incorporating computers, CD-ROM and laser disk technology into the curriculum as instructional tools through a collegewide fiber network.

FACILITIES

During the first year of his tenure (1978), Dr. Kuttler went to the voters of Pinellas County to request their approval, by referendum, of a temporary, additional 1/2 mill in property taxes for college improvements. Despite predictions of failure from some quarters, the referendum passed and the College was able to accomplish some much-needed renovations with the new funds.

In an effort to respond to the growing demand for health care providers and to make more effective use of resources, the college petitioned the Florida Legislature for funding to purchase and remodel three buildings at the former Webb's City retail complex in Pinellas Park. A special $6.5-million appropriation from the Legislature was obtained and the College acquired 170,000 square feet of floor space for its Health Education Center. In addition, a capital campaign, begun in 1981 and completed in 1986, raised $3.5-million, including a significant gift from Mr. and Mrs. W.W. Caruth Jr.

In the summer of 1981, ten of the college's then eleven health care programs were moved into the new Center and classes began that August. The eleventh program, Veterinary Technology, occupied its building in August 1983. Since then, the college has acquired additional property for parking space, plus two additional properties fronting on 66th Street N. All of the buildings on the 11.63-acre tract have now undergone renovation. The library area has been expanded into the newly renovated space and includes the M.M. Bennett Library Processing Center. A $400,000 overhaul of the Center's parking lot was completed early in 1994.

The expansion of the College's Corporate Training Services program led to the establishment of the Corporate Training Center in the Carillon office complex north of St. Petersburg in Winter 1988. This 7,000-square-foot facility houses class and conference rooms with full computer, teleconference and dining facilities.

In July 1988, the Allstate Insurance Company turned over to the College the keys to its former regional office facility in south St. Petersburg. The 131,344-square-foot building on 20.85 acres was valued at more than $11-million. At the time, it was the largest property gift ever made to a Florida institution of higher education, and the largest ever to a United States community college. Extensive renovations were completed in 1991. The Allstate Center houses the Administrative Computing Center as well as the Open Campus program and the College's Southeastern Public Safety Institute (law enforcement programs).

In January 1987, the college played host to the first-ever "Roundtable on Institutional Effectiveness." A dozen national experts on higher education and community college administration, led by former U.S. Secretary of Education Terrel Bell and Director John Roueche of the Community College Leadership Program at the University of Texas/Austin, met to develop future directions for the College.

Within a year, St. Petersburg Junior College held the second of these conferences. The "Roundtable on Educational Partnerships" brought together leaders from national organizations representing American postsecondary education. Together they analyzed the ways St. Petersburg Junior College had successfully addressed many of the education and training issues facing the local community.

The second roundtable led to a request from the Association of Community College Trustees (ACCT) Executive Director William H. Meardy for material relating to the college's presentations at the conference. Administrators, faculty and board members responded, providing 46 pages of information about the College, its programs and accomplishments. Published in the *ACCT Journal*, this marked the first time an issue was devoted exclusively to a single institution. Mr. Meardy wrote "Those of us who were expecting a "typical" community college found out our expectations were wrong. St. Petersburg Junior College is anything but "typical". Words such as "outstanding," "amazing," "innovative," "creative," "first class," "exemplary," "trend setting," and "community centered" describe SPJC, but "typical" it is not. What we found was a college replete with such an abundance of human services and educational programs that we were awed."

In 1982, at a national conference of college trustees, future Chairman of the Board of Trustees Tom Gregory (who earlier had chaired the Florida Ethics Commission) and President Kuttler heard Dr. Paul Ylvisaker, former Dean of Harvard's Graduate School of Education, outline the rationale for an Applied Ethics program. Following Dr. Ylvisaker's visit to St. Petersburg Junior College in November 1987, the Board of Trustees approved the creation of an Applied Ethics program for the College, which is required for all students seeking the A.A. degree. Finding no satisfactory text for the course, the college authorized the writing of a textbook. In July 1993, *Ethics Applied* was published by McGraw-Hill and marketed nationally. It was written by 17 specially commissioned authors from around the U.S., including three from the College faculty.

The College's Central American Scholarship Program (CASP) was established in August 1987. Sixteen (16) students from modest backgrounds comprised the first class. The program provides students, in two years, with the academic and vocational education needed to improve their families' standard of

JUL 23

living when they return home. While enrolled in the program, each student lives with an American family who helps him or her to adjust to life in the United States. The program, initiated by Georgetown University in Washington, D.C., is funded by the U.S. Agency for International Development.

St. Petersburg Junior College and the American Association of Community and Junior Colleges worked together to offer the first national conference on "The Role of the Community College in Shaping the Nation." Held at the Jimmy and Rosalyn Carter Center in Atlanta, it brought some 200 educational administrators and public officials together at the research and conference complex to discuss national and global issues as they relate to the education of the nation's college students. In a message to the gathering, former President Carter noted that better preparation of students holds the key to the United States regaining its competitive edge in world markets and adjusting to the evolving economy.

In 1989, former U.S. Secretary of Education Terrel Bell accepted the college's invitation to chair the College's FACET Commission (Focus on Access, Community and Excellence in Teaching), and agreed to work with Dr. John Roueche to help guide the college's faculty, staff and students. The purpose of this project was to insure continued educational excellence into the next century. During the months following the creation of this commission, members met to discuss teaching effectiveness, evaluation of teaching performance, recognition of teaching excellence, and professional development. Their published report provided direction for the college.

In October 1989, the College and the American Association of Community and Junior Colleges co-convened their second leadership seminar, at the Gerald R. Ford Museum in Grand Rapids, Michigan. "Workforce 2000" looked at the future economy in terms of the people and forces that will make it function. Included in the topics discussed were the role of technology, the importance of a quality workforce in a global economy, and the blending of enterprise and education.

In the international arena, as the breakup of the Soviet Union brought about profound changes in the structure of institutions within Russia, leadership at the college envisioned a joint educational venture between the College and the Russians. In June 1990, President Kuttler and the president of Leningrad State University exchanged visits. The project evolved from conversations Dr. Kuttler had the previous spring with a Leningrad State law professor, Valery Musin, who was visiting Dr. Kuttler's alma mater, Stetson College of Law, in St. Petersburg.

Dr. Kuttler spent two weeks in Russia in Fall 1990, during which time he served as honorary rector of Leningrad State University. He met with administrators, faculty and students as well as with Leningrad (now St. Petersburg) Mayor Anatoly Sobchak, one of the leading political figures on the

Russian political scene in the post-Gorbachev era. The Russians reciprocated that October when Mayor Sobchak and Leningrad State University President, Stanislav P. Merkuriev, led a delegation to the Tampa Bay area. During their stay, Dr. Merkuriev was named honorary president of St. Petersburg Junior College. The Russian entourage met with many educational, civic and business leaders while they were here.

In June and July of 1991, Dr. Kuttler visited Baoji Teachers College in Baoji, Shaanxi, China. Dr. Yang Yijun returned that visit to St. Petersburg Junior College in March 1992, and was named honorary president. A St. Petersburg Junior College professor Jeff Hooks and his family spent a year in residence at Baoji, and other Chinese have visited here since.

At the special invitation of the U.S. Information Agency, which is an arm of the State Department, Dr. Kuttler returned to Russia during late May and early June of 1993 . He was chosen from among more than a thousand of his peers to assist the Russians in setting up a community college system within their country to help speed economic reform and development. While there, he arranged for future visits and exchanges on the part of educators and other representatives between Russia and the College. A campus in the "other" St. Petersburg is a long-term objective of the College.

SPJC and its president were honored in February 1997 with the Werner O. Kubsch Award for Achievement in International Education, one of community college education's most coveted awards.

In mid-1996, Tarpon Springs retirees Allen and Isabelle Leepa decided SPJC was the institution to which they would make a remarkable donation: the Leepa-Rattner Art Collection, plus a gift of $2.5-million, to go toward establishment of the Leepa-Rattner Museum of Fine Arts at the Tarpon Springs Center. The collection — mostly of expressionist art by Allen Leepa and his stepfather, Abraham Rattner, but containing works by Picasso, Chagall, Hans Hoffmann, et al. — numbers in the thousands and its value is approaching $20-million. The gift has earned recognition from, among others, the Florida Cabinet and Legislature, plus *Fortune*, *Newsweek*, and Microsoft's *Slate 60* online magazine. Plans for the museum, and for the necessary fundraising, continue to develop. The gift, meanwhile, has generated a decided increase in philanthropic interest in SPJC.

August and September 1997 marked additional milestones in the life of the College. At summer commencement, the first three graduates of the Veterinary Technology Online program received their degrees after completing their studies on the Internet from their homes in Leon, Sarasota and Palm Beach counties. (Other students in the program are scattered across Florida, the U.S. and beyond.) In September, SPJC rounded out seven decades of service to the community in typical fashion: by making a further commitment to the future. It broke ground for the Seminole Campus, which is to open in August 1998 as a model center of technology that will serve SPJC collegewide.

* * *

During the past half-decade St. Petersburg Junior College's move toward the center of the national education stage has been clear and pronounced. It has been evidenced by a growing number of successful endeavors, ranging from an in-depth analysis of the college's programs to presidential roundtables to educational exchange programs with Russia, China and others. Armed with this momentum and its traditional vision, the College eagerly welcomes the coming of the next century.

POST SECONDARY EDUCATION

Colleges/Universities Serving the County:

1. University of South Florida
2. Eckerd College
3. Florida Institute of Technology
4. University of Tampa
5. Stetson Law School

Junior/Community College within 50 mile radius:

1. St. Petersburg Jr. College
2. Schiller International College
3. Hillsborough Community College

Vo-Tech Schools within 50 mile radius:

1. Pinellas Technical
2. Florida Technical College
3. Erwin Technical

Curriculum offered in Vo-Tech Schools:

Data Processing	yes
Welding and Cutting	yes
Electrical Wiring	yes
Aviation/Avionics	yes
Drafting	yes
Sheet Metal	yes
Machine Shop	yes
Electronic Technology	yes
Laser Electro Optics	yes
Biomedical Technology	yes
Robotics/Computer-aided Manf	yes

MEDICAL

Hospitals	23
Number of Beds	5,111
Nursing Homes	81
Number of Beds	9,241
Physicians	2,021
Dentists	606

FACILITIES

Motels	393
Total Rooms Available	13,897
Hotels	34
Total Rooms Available	4,680
Civic Auditoriums	4
Total Seating Capacity	62,346
Regional Malls	10
Shopping Centers	132
Libraries	21

CHURCHES

Catholic	29
Jewish	12
Protestant	275
Other	360

RECREATION

Tennis courts	yes
Beaches	yes
Golf courses	yes
City/state parks	yes
Boating	yes
Public swimming pools	yes
Movie theaters	yes
Country clubs	yes
Symphony	yes
Museums	yes
Zoo	yes
Pari-mutuel wagering	yes

1996-97	32327	56.8%	24623*	43.2%	**56950**

There are several types of course categories within the credit and non-credit system; prior to 1990-91, the headcount number for non-credit students represented an unduplicated count within each of the various non-credit course categories. Beginning 1990-91, the unduplicated headcount number represents an unduplicated count between all non-credit course categories. However there is still potential duplication between credit and non-credit, i.e., a student who takes both credit and non-credit courses is counted twice.

"Statewide All" consists of all public state universities and community colleges only.

Section 240.107 (9)(c), F.S., as amended by the Florida Legislature, provided for alternative ways to meet the CLAST requirements. As of January, 1996 students could exempt CLAST if they earned a 2.5 GPA on courses set forth by the Postsecondary Planning Commission and/or achieved a specified score on the state approved tests. Therefore, population taking Clast after January, 1996 cannot be compared to student populations who took CLAST prior to this time. Implementation of CLAST exemption alternatives has resulted in decreased numbers of students who take the CLAST, and declining pass rates.

SPJC Institutional Research
Source: Testing Office
Revised 11/26/97

The passing scores were originally adopted on March 6, 1984, and have since been amended several times. The most recent change occurred in 1992. The passing scores are: Essay is 6, ELS is 295, Reading is 295 and Mathematics is 295.

* Deleted Program in Academic Year 1994-95

** Deleted Program in Academic Year 1995-96

NOTE: The total pool is based only on those matches where a training related decision was made.

Placement rates do not include those records without match data, or those that are underterminable or unusable.

Appendix B provides information about employers of graduates.

1996-97 data will not be available until October 1998.

*The increase in 1994-1995 "Other Student Fees" is directly attributable to the new "Security Fee" implemented for the first time in 1994-95.
These fees alone were $706,944.

**Private Gifts and Grants were down in 1994-95 in the Unrestricted Current Fund -
1993-94 - U=143,881, R=97,743 = Total 241,624
1994-95 - U= 10,746, R= 198,061 = Total 208,797.
The scholarship fund also increased slightly in 1994-95 ($6,283).

APPENDIX D

DESCRIPTION OF SPECIAL PROGRAMS

English as a Second Language (ESL)

The English as a Second Language (ESL) program offers a series of English courses to meet the needs of non-native English Speakers. The ESL program is designed for those students who are interested in learning to read, write, speak, listen, and understand the English language in order to work toward the associate in arts or associate in science degree and to progress toward higher degree or enter the workforce.

Description of Services for Program for the Deaf

The Program for the Deaf was established at St. Petersburg Junior College in 1966. Services in the program include interpreting, notetaking, and tutoring. In August 1966, The Office of Services for Students with Disabilities was established encompassing the Learning Specialists, the Program for the Deaf and Hard of Hearing, and the Job Placement Specialists. The Office of Services for Students with Disabilities provides reasonable accommodations to ensure accessibility. The office offers academic advising, counseling, audiological consulting, and job placement services. Telecommunication Devices for the deaf (TDD), Assistive Listening Devices and amplified telephones are available.

St. Petersburg Junior College is dedicated to the concept of equal opportunity. The college will not discriminate on the basis of race, color, religion, sex, age, national origin, or marital status, or against any qualified individual with disabilities, in its employment practices or in the admission and treatment of students. Recognizing that sexual harassment constitutes discrimination on the basis of sex and violates this rule, the college shall not tolerate such conduct. Should you experience such behavior, please contact the director of EA/EO at 341-3257.
